Press release

InfoText Manuscripts announces the publication of *Scatologicus Eroticum* on 4th February 1993. "If you thought *The One Hundred And Twenty Days Of Sodom* was bad, you ain't seen nothing yet" says editor A. W. Anka. This is a gross exaggeration, but this anthology is pure filth. Order your copy before the Festival of Shite bans it. It's £2.99 from the above address.

Note for editors: no review copies will be sent out.
