**Press Release: Embargoed for 20th April**

Now, the people who gave you *The Ballad of Captain Bob* give you an exposé of the Jewish method of cattle slaughter.

InfoText Manuscripts announces the publication of *Shechita Barbaric!*

To celebrate the 104th birthday of our glorious Führer, we are publishing this "tribute" to Arnold Leese. In *Shechita Barbaric!* you will learn:

why this distinguished veterenarian fought for many years to outlaw Jewish ritual slaughter

the truth about the secret Kosher tax on food

how the Society for the Prevention of Cruelty to Animals was founded by a Jew

how shochet's fees fund Jewish charities

the shocking truth about "Animal Rights"

*Shechita Barbaric!* is just £2.99 from InfoText Manuscripts. Order your copy now, before it's banned.

Here is what the critics say about *Shechita Barbaric!*

The most outrageous pamphlet since the *Leuchter Report*, and ten times more convincing. (Well, that wouldn't be difficult!) - David Irving, historian and libertine

Outrageous anti-Semitism. It's more important than ever that the Jewish community donate money to *Searchlies* - Gerry Gable, British intelligence officer

Oy vay! - Immanuel Jakobovits, unemployed rabbi

Astounding, but I thought the ITMA team were in the pay of the Jews - Richard Edmonds, retired schoolmaster

A timely exposure. I laughed all the way to the pogrom - Harold Covington, C18.

I must run and tell Patrick - Larry O'Hara, PhD student
