**February 8, 2018**

**Sir,**

**In response to Ayesha Hazarika - yesterday's paper - it is hardly surprising she believes in the mythical gender pay gap, after all, she is a comedienne. If though she wants equal pay for equal work, she could retrain as a bricklayer, refuse collector, sewage maintenance work, or a few dozen other professions which are open to women but which curiously none seem to wish to enter.**

**Yours Sincerely,  
A Baron**
