

## ***International False Rape Timeline - hangout (39) - LONG HOT SUMMER***

**I began with some background to recent calamities and my aspirations for the Timeline this year.**

**I mentioned social media cases in relation to the Timeline, and to some odd, quite fantastic cases. I covered the odious Virginia Giuffre and discussed the Epstein case at some length including the mendacity of police “agents provocateurs”.**

**I mentioned a police officer who’d recently been dismissed for having (consensual) sex with women connected with his work. I mentioned power imbalances on the back of this. After that I mentioned the current Ellen DeGeneres (manufactured) scandal in connection with cancel culture and the #MeToo Movement.**

**I covered various other cases/matters and finished off with some general talk about these hangouts.**
