

# ***International False Rape Timeline***

## ***- hangout - (120) Smoke(y) And Mirrors***

**This hangout was recorded May 15, 2015. After being edited it was uploaded to YouTube on May 17. begins with the (ludicrous) claims made against Smokey Robinson by four women who worked for him as maids over a long period. I play a short clip (audio only) of the lawyer representing the so-called victims. (Since this lawsuit was filed, a criminal investigation has in fact been opened into Robinson. I doubt anything will come of it). I mention *en passant* the allegations (by one woman) against Garth Brooks.**

**I cover the recent case of Gérard Depardieu and play another audio only clip then go on to discuss Sean Combs and Harvey Weinstein, both currently on trial in New York.**

**I go on to cover Russell Brand playing another short clip, again audio only.**

**I go on to discuss the claim by feminists that women often retract truthful allegations of rape illustrating this with a case in which a woman actually did this, but the circumstances were extreme, to put it mildly, the case of Jimmy Fennell.**

**I go on to discuss the case of Roy Burnett, having just found a report that names his false accuser.**

**I go on to discuss an old story from *The Toronto Star* which includes a slightly unusual false rape allegation.**

**Next, I return to the Prince Andrew case and the research of the much traduced but admirable Lady Victoria Hervey.**

**After that I go through various cases I have found recently, both false accusations and dubious acquittals.**

**Carol DaRonch and Linda Schlueter show how to fight back against a rapist and worse:**
