

International False Rape Timeline

- hangout (38)

- News & Stuff

This was recorded July 7, 2020 and uploaded to YouTube then Bitchute the following day.

I covered the Ghislaine Maxwell case in the United States making sure I trashed that little whore Virginia Roberts.

I covered the recent Justin Bieber allegations, again in the United States.

The third case from the United States is the appeal of Bill Cosby, who appears to be playing the race card. Oh boy.

I played a clip from a recent YouTube upload by Jon Wedger, a promoter of the grand conspiracy of child sexual abuse. He had a woman with him who is either a nutter or an attention-seeker or both. I made some general comment on people like him including Ted Gunderson, and why they can appear so plausible. I alluded to Lucien Greaves erroneously as Julian Greaves.

I finished with some brief talk about some recent cases including more legal duplicity in Scotland.
