

International False Rape Timeline – live hangout (66) –

Open House

This is the first live hangout since March 12, 2020. I picked up 3 viewers in the chat who stayed with me until the end. The hangout started officially at 10pm London time.

I did have some sort of menu but it was all over the place.

I started with some discussion of Rolf Harris, the new book by William Merritt, and my rescinded invitation from Shaun Attwood. I discussed Attwood's so-called documentary about Jimmy Savile.

The false allegations of Amber Heard against Johnny Depp were discussed with some prompting from the chat.

I discussed sundry false rape allegations from the news, older allegations, and (new) historical ones, including from France and against celebrities. The issue of Satanic abuse was raised by the chat. I covered this including Ted Gunderson *et al.*

I recounted some classic cases from the Timeline with the emphasis on purportedly delayed reports and the effects of alcohol.

I also covered the false allegations against Prince Andrew, and very briefly the Ghislaine Maxwell case.
