

# FUN among the STARS

Your birthday's the clue—find your own Zodiac sign for a lighthearted look at coming events. See, too, what's in store for your favourite stars of disc and screen.

**ARIES THE RAM** (21 March—19 April). A big surprise is coming your way this week, which you will enjoy very much. An exciting outing or a special invitation perhaps.

**TAURUS THE BULL** (20 April—20 May). Through your own hard efforts you will do well in everything you attempt this week, particularly at school.

**GEMINI THE TWINS** (21 May—20 June). If you have brothers and sisters they could annoy you by breaking a promise. Don't let this upset you, for everything else will go off splendidly.

**CANCER THE CRAB** (21 June—20 July). You may find you do more work than play this week, but you will discover that your efforts will be very rewarding, and please all those you are fond of.

**LEO THE LION** (21 July—22 August). This could be a very lucky week for you, but if you are asked for help, don't hesitate to give it, otherwise you may make someone very close to you unhappy.

**VIRGO THE VIRGIN** (23 August—22 September). You are a person who likes to do everything you attempt well. Don't be discouraged if things do not go right at the beginning of the week, they will improve.

**LIBRA THE SCALES** (23 September—22 October). If you are an only child, this week promises to be especially happy. However, everyone under this sign looks as though they will have a pleasant week.

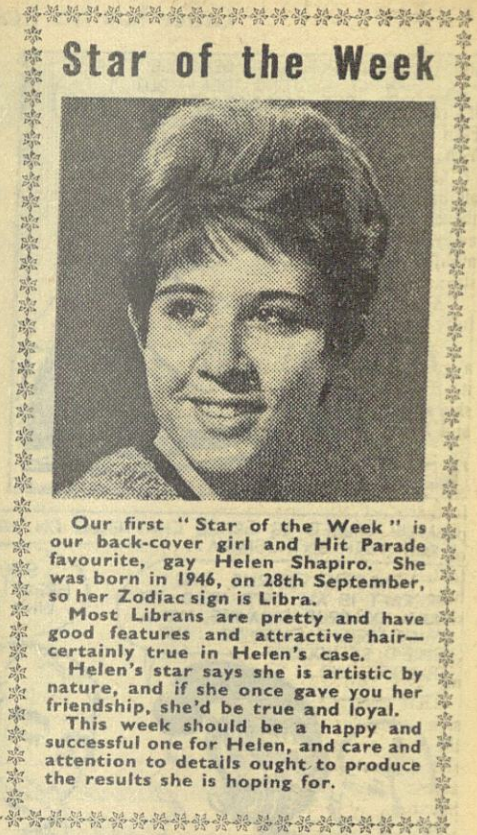

**SCORPIO THE SCORPIO** (23 October—21 November). Someone you thought you did not like very much will prove to be not so bad or something you were not looking forward to will turn out quite pleasantly.

**SAGITTARIUS THE ARCHER** (22 November—21 December). A good week for all your hobbies or any sport in which you are interested. Don't neglect your work for these, though, for you'll enjoy both.

**CAPRICORN THE GOAT** (22 December—19 January). You are going to meet someone new, who will become a firm friend. But keep in touch with old friends, too, or you might lose a good one.

Our first "Star of the Week" is our back-cover girl and Hit Parade favourite, gay Helen Shapiro. She was born in 1946, on 28th September, so her Zodiac sign is Libra.

Most Librans are pretty and have good features and attractive hair—certainly true in Helen's case. Helen's star says she is artistic by nature, and if she once gave you her friendship, she'd be true and loyal. This week should be a happy and successful one for Helen, and care and attention to details ought to produce the results she is hoping for.

**AQUARIUS THE WATER BEARER** (20 January—18 February). This week is the time to patch up any quarrels you may have had with friends. It could lead to a lot of future happiness and pleasure later on.

**PISCES THE FISHES** (19 February—20 March). You are the most sensitive of the twelve groups of people, so don't get upset if someone speaks harshly to you. They won't really mean it. Fun for you with pets.

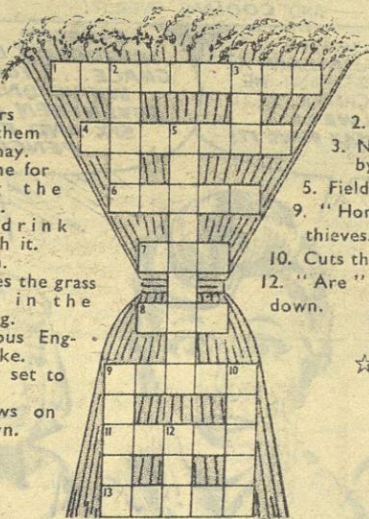

## IT'S A PUZZLE

(Answers to puzzles on page 21)
