Dear

With the rise of "nationalism" in Europe and increasing racial tensions at home, and the continuing crisis in the Middle East, organised anti-Semitism is again rearing its ugly head. The rise of Islamic fundamentalism and black "nationalism" is adding a sinister new dimension to the traditional fascist pastime of Jew-baiting. Moslem extremists in certain areas of Britain are open distributing the *Protocols of Zion*, and the activities of David Irving and his ugly friends in the British National Party are leading to calls for stronger legislation against incitement.

Unfortunately, stronger legislation will only make the problem worse; the *Race Relations Act* is already seen as a Jewish creation by Irving and his friends, and many civil libertarians have expressed concern at any further restrictions on free speech.

Education, not legislation

ANGLO-HEBREW PUBLISHING is being set up to tackle this very problem. Anti-Semitism is not a disease so it cannot be cured, and it certainly cannot be suppressed. Anti-Semitism is based largely on disinformation and spurious generalisations. Instead of lobbying for stronger laws against incitement, what we plan to do is issue a series of pamphlets and full length books on the real nature of Judaism and explain the truth about the *Protocols of Zion*, the world Jewish conspiracy, "Jewish communism" and related issues.

We have already commissioned the following publications for 1993:

- A Defence of Shechita - a pamphlet
- The *Talmud* and Homosexuality - a pamphlet
- Anti-Semitic Propaganda: A Pocket Primer - a reference book
- A History of Anti-Jewish Fabrication - a short, easy to read book
- The Silent Holocaust - assimilation and how it can be stopped
