

# Consenting Adults

NOV  
1997

*the organ of the Sexual Freedom Coalition*  
**LOVE • LIFE • LIBERTY**

## **Dear Sexual Freedom Campaigners,**

Enclosed please find details of our last Campaign meeting.

I am writing to you as editor of **Consenting Adults**, our campaign newspaper. It's been very difficult to make this paper come out as a regular freebie in the same mould as the free gay papers which helped the gay community blossom. That was our initial intention, and perhaps, one day, we *will* achieve it.

I've decided that it would be much more useful for us, at this stage of our development, to make the paper more of an organ where our supporters can express ourselves, reaching out to others who feel the same (We will still be giving readers an overview of current politics, and comprehensive list erotic clubs and facilities around the world — **please send me anything you can on your local scene**).

I shall be devoting each page of the newspaper to individual tastes and some are already covered. But, here's where I need your help (obviously your contribution can be completely anonymous):-

### **a) Group Sex.**

Please write (in a total of maximum 100 words):

- 1) the **best** group sex experience you have ever had
- 2) the **ideal** group sex experience you can imagine
- 3) why it's important that the laws/status quo in this country should change, to make it easier for you to enjoy this, thus help your life improve. Please state **why group sex is important to your life**.

### **b) Sex on Drugs**

Please write a maximum of 100 words on how *any* one drug (be specific) has improved your sexual pleasure, being as graphic as you can be.

### **c) How SFC can do more for women.**

If you are a woman, please complete the enclosed questionnaire as honestly as you can. We'll be putting this survey in the next newspaper and your initial contribution will help us make sure we word it right.

Please send back your ideas and wisdom within the next week.

Love,

  
Tuppy
