## COME TO OUR NEXT MEETING

Our next meeting is being held on Tuesday, February 22nd. The rendezvous for this is **outside** the Valentine public house next to Gants Hill Odeon at Gants Hill at 7.30pm. The venue is not far away and transport will be provided. Anyone drinking inside the Valentine will be left behind!

We have three excellent speakers including the party's former National Elections Officer Mr. Eddy Butler who masterminded our council election win at Millwall; Mr. Steve Smith who was our branch Organiser covering that area at the time and Al Baron, a non-member, who is a libertarian committed to free speech and who will address the meeting on the subject of the anti-British left and their predisposition towards intolerance.

We haven't had a meeting in Redbridge for some time, so come along and listen to the speakers. Hear how the BNP is going to emulate the Freedom Party of Austria and start reclaiming our land back, to make this land decent once again.

### NEW MILLENNIUM — NEW LEADER!

At the end of last year, the BNP elected a new Chairman Mr. Nick Griffin — the first **elected** Chairman of the BNP for seventeen years. In doing so, the party has removed one of the most pressing obstacles to progress for the party — Mr. John Tyndall who has dominated Nationalist politics for 25 years. While Mr. Tyndall deserves credit for keeping the flame alive through some dreadful times for Nationalism, it has to be said that his personal leadership style and his past image has given the BNP many problems.

With the election of Mr. Nick Griffin there will be a new emphasis on making the party's policies more saleable. At the same time, the party's publicity machine has been given an overhaul and the party's old paper, *British Nationalist* has been replaced with a new paper — *The Voice of Freedom*. *VoF* is printed on newsprint, is cheap enough to be given away free like a leaflet and will provide the motor that will take BNP votes back up to the winning mark.

As you will know, Jörg Haider has proved that Nationalism can succeed in Austria. Likewise, we aim to see Nationalism succeed in Britain. Do you want to join our fight to make Britain Great once again? Or do you want to slump in front of the TV and watch another brainwashing programme telling you that it's morally right to give our country away to every Tom, Dick and Harry that can mutter the word 'asylum'?

In April, Jack Straw will take the most far-reaching political decision since the advent of mass immigration into this country — he is going to spread them out, forcibly by law. For the first time, our message on race will have resonance in the most rural areas. Overstowey in Somerset (population approx 80) is to get 170 'asylum seekers'! It's no longer an inner-city problem. Very soon, all of our people will know the score. Our party is growing, our message is right and Labour are playing into our hands. All we have to do is put in the work that will enable us to win once again so that the floodgates open which will catapult us into the same position as Jörg Haider's Freedom Party. It all starts here!
