Sir

Your letter to myself of 16 September refers.

Please note that I have no intention of responding in any way to the wildly inaccurate story in Searchlight. I feel the story condemns itself out of its own mouth by the staggering exaggerations and fictitious claims contained therein. There are at least eleven glaring factual errors that I can see in it just at a cursory reading - errors which are easily refutable by some simple fact checking.

Please also be advised that, contrary to what Searchlight appears to believe, I have no intention whatsoever of becoming involved in politics, either in South Africa or in the U.K.. Please therefore be so kind as to not involve me in any campaign of any sort.

Yours sincerely  
A Kemp
