LETTER FROM AN IMPRISONED WRITER

Dear Winston,

In case you've been wondering where I'd gone, here I am. I was arrested on November 1st last year. I would have written to you sooner but if you contact the editor of Rune he'll explain why I didn't. I'll be brief. I need publicity but I don't want any nonsense about ZOG, etc. My Moslem friends are doing what they can, as are certain others, and I don't need crazies.

Briefly, I've got a provisional trial date, with little or no chance of bail, on April 22nd. I've got three charges at the moment, although there is talk of adding a fourth, publishing a pamphlet that would be perfectly legal in the USA. The other charges are witness intimidation, making a threat to kill (an out and out fabrication), and "assault". The assault charge is creative, to put it mildly. I gave a document to a police officer, who showed it to another police officer, who showed it to the alleged victim, who was so distressed and suffered such "mental anguish" at the contents that they have charged me with assault! No, I am not joking!

The so called victim is a social security fraud investigator *[i.e. a benefit snoop. For those of you*

who have never lived in Britain, these people are professional informers hired by the British welfare state and often work on commission, getting a percentage of the fraud, real or imagined, that they discover. They are also notoriously corrupt and susceptible to bribery by welfare cheats, demanding kickbacks, etc.- WS] It will not surprise you to learn that he/she [word illegible] is an accomplice of one Gerry Gable. Gable has made a statement to the police that won't go down very well with his left-wing friends.

Now, if you're in the running, I need your help. Firstly, I need as much publicity as possible. You'll be able to get some details from the editor of Rune. I'm afraid my solicitor has been very obstructive and no help at all. Can you put a message out on the Internet in various right wing (and not so right wing) news groups? I need any information on a woman who was active in the British National Front or on the nationalist scene in the 1980s. She may have been using the name of Mrs. McGuinness, she may have been using the name Broadway, or she may have been known simply as Rita, but this is quite important.

Secondly, can you put out some sort of appeal? I've had problems with Legal Aid and I've got no money coming in at all. Cash in small amounts can be sent straight, checks in British currency drawn on a U.K. bank only should be made payable to the Governor, H.M. Prison Brixton. A donation or two would be appreciated but the main thing is that I need publicity and lots of it. Gable will be a major witness at the trial starts at Southwark Crown Court on April 22nd, and whatever the result he will be totally discredited for good.

Gensec: Alexander Baron is not a National Socialist or a racialist; he is rather the typical British eccentric, a libertarian writer whose ideas I sometimes find strange but who in the main is far more "one of us" than he realizes. He has also spent some years taking on Jewish *Searchlight* editor Gerry Gable, one of the worst enemies of freedom and human decency alive today, and in the course of his one-man David-against-Goliath battle Mr. Baron has displayed a tenacity, a panache, and an exemplary physical courage which is inspirational.

Baron is one of the few people who have had the *cojones* to sue Gerry Gable after being libeled in *Searchlight*, (not all libel suits are bogus; it depends on who is suing whom and why), and he has been subjected to

intense persecution because of his refusal to give in. Gable is entirely capable of fabricating some kind of criminal frame-up against Baron, and he is

known to have the necessary contacts and influence in the police and judiciary to do so. Gable's chummy relationship with British intelligence (MI5) and what is known in Britain as "the secret state" has been the subject of several journalistic exposés down through the years; he is one of the most blatant government agents on either the Right or the Left, anywhere. This is not the first time Mr. Baron has been jailed in the course of his war against Gable's lies and vicious hate-filled activities, and several years ago he was beaten almost to death on his very doorstep by three of Gable's thugs armed with hammers. If memory serves, his attack-

ers were never apprehended.

This man deserves our help, for he is fighting for literary and political freedom in the land where many of us trace our ancestry, and that is a battle worth fighting. I ask you all to give Alexander Baron that help. I ask you to post this letter far and wide, everywhere you can think of that might help, and if you can spare a quid or two lay it on him. - *Winston Smith*

Dirty Deal On Guns

by the Desert Viperfox

— Many deviants, including the BATF, publish their legal notices in newspapers, including lists which appear in the leftist rag, the *USA Today*. But what you might not know is how extensively they

continue to seize American citizens' property, especially weapons and ammunition.

In the January 30th, 1997 edition, for example, the Depart-

ment of the Treasury placed a huge ad with print so small that the standard fonts used in footnotes would seem large by comparison. There were hundreds of items this time, all with dollar values and identification numbers, of course, but the more importantly, this most recent list *only* included firearms and ammunition. Using whatever legal excuses they can concoct, in addition to the 22,000+ bogus gun laws on the books, they are quickly grabbing up more and more weapons.

Do you suppose they are quietly disarming the population? You bet they are! And while they wait for the socialists in Congress and the Senate to pass pending legislation which requires anyone with an
