THIS YULETIDE SUPPLEMENT TO GOTHIC RIPPLES conveys my hearty greetings and good wishes to all my subscribers and supporters and friends and contacts and all the magazines and newsletters which continue to come to me from across the world. If you have sent a card to me and not had one in return, please excuse this and accept this supplement in lieu. My wife, Julie, also here thanks all who have included her in their yuletide message, and so does my stepdaughter and office-helper Suzanna, Suzy for short.

Here at Thorgarth we are of good cheer, despite the daily abomination of the world of Democracy outside the gate. I have to own up to slowing down a lot more during the past year and having some more medical defects diagnosed but you cannot expect to clock up four score and five without this, I can say that nevertheless I have far from retired from the good fight as later contents of this supplement will show.

TO START WITH let me mention that in the last quarter of the year I have taken on Harrogate Magistrates Court and the Chief Constable of North Yorkshire over the continued failure of the latter's police force to return to me in a satisfactory way (that is to say by prior inventory individually specifying all items and thus enabling essential checking at the time of return more than 14,000 items of my property, mostly papers, seized in two raids, one on 4/8/98 and the other on 21/3/99 amounting to some 15,000 items with 585 later returned. The seizures included a great quantity of what in terms of the Police and Criminal Evidence Act 1984 is classed as journalistic material and as such termed 'special procedure material' which can only be seized by application to and the sanction of a circuit judge, whereas it was seized without such sanction and merely on the authority of a magistrate's warrant. There were over 800 of these prohibited items. All the seized items became returnable on 23/11/2001 when the judge at Leeds Crown Court halted the ensuing proceedings against me because of the evidence of three heart specialists that I was unfit to stand trial because of congestive heart failure.

The above raids and prosecution and subsequent refusal to return property other than by indiscriminate dumping without adequate listing and thereby adequate checking and thus conducive to hiding loss and damage, and most recently a threat to destroy my property unless I shortly accept to go and collect it without adequate listing and checking: all this exhibits an urge for revenge for the humiliation I inflicted on the North Yorkshire Police in 1992 when, after a search and seizure by means of a defective warrant, I applied for and was granted a Judicial Review at High Court in London and on the verge of that Review the then Chief Constable capitulated and admitted to the Court that the search and seizure had been illegal, agreed to return all my seized property and abandon a prosecution. The Court granted me damages and costs which were subsequently adjudicated at £10,000 and £4,000 respectively.

Currently I have applied to Harrogate Magistrates Court for a proper return of all the immense amount of my property still held by the police, and eventually after 14 weeks delay the case, under the Police (Property) Act 1897, came to that court on 11 November last. Then the magistrates' clerk tried in vain to stop me mentioning the past humiliation and consequent motive of revenge of the North Yorkshire Police. The Chief Constable's legal representative then produced a property list which the magistrates accepted in ordering a return of property, a list which was later seen to be monstrously deceptive in that it comprised a mere 694 items, thus leaving some 13,000 items unaccounted for.

THIS YULETIDE finds our race and nation in direst peril apparent everywhere. Only a new realism can bring a hope of survival and revival. This realism requires that we entirely

know the enemy, and the enemy includes the police as a whole, now perverted into an agency for the Coloured occupation, racial mixture and Jewish control of Britain. In this they use and abuse the law as suits them. Exposing and combatting them in this is a vital part of the new and radical way ahead, and this I am seeking to pursue in the action above.

REVEALING REPRESSION as characteristic of the stealthy development of Democracy into an undercover form of Communism is another vital part of the radical way ahead for us. We have to expose the old parties purveying Democracy as one and all engaged in robbing us of our heritage of freedom on the pretext of defence against terrorism which they have brought down on us through their subservience to that product of terrorism, that troublemaker of the Middle East, Israel; thereby enabling them to enforce compliance with their objective of a Britain of multiracial diversity in a frame of global fusion.

This brings me to an example of the current curtailment of freedom: the case of fellow campaigner and friend Simon Sheppard and his associate Steve Whittle, put on trial at Leeds Crown Court during the past year for daring to express opposition to the abomination of the Coloured occupation and Jewish control of Britain. When it became apparent that they were to be severely punished for their patriotism, the intrepid two took advantage of a weekend break in the proceedings to hop a plane to Ireland and thence to the U.S.A. where they applied for asylum from political persecution in the U.K. Thereby they made their mark in the annals of resistance to the ruination of Britain, causing acute embarrassment both to the misgovernors of Britain, illuminated as suppressors of precisely the freedom of expression guaranteed by the American Constitution, and to the wretched Bush Administration, eager to uphold their transatlantic satellite.

'Vanguard', a stalwart exponent of authentic racial nationalism produced by the British Peoples Party, has commendably espoused the cause of our two asylum seekers, promoting an appeal for the substantial fund required for an effective conduct of their case in the hearings of their application set for next March. 'Vanguard' asks that donations be sent to: Croydon Preservation Society, P.O. Box 301, CARSHALTON, Surrey, SM5 4QW. 'Vanguard' is obtainable from BM Box 5581, London, WC1N 3XX at a subscription of £24 post free (cheque payable to British People's Party).

AMONG OTHER VICTIMS of the crypto-communism which has come to power in the Britain of 2008 in the extent of the forcible suppression of free speech on racial matters is the comrade who has marketed as a CD my 'Britain Awake' speech of 37 years ago under the trade name of 'Mad Dogs and Englishmen' from P.O. Box 52185, London E2 0WS. Fortunately his term of imprisonment for upholding his race and nation has expired on the very edge of yuletide.

THE SAME CRYPTO-COMMUNISM prevails throughout the White World prefacing the overthrow of the White Man. It is nowhere more advanced than in the very land which saw the greatest resurgence of the White Man of all times, Germany, where today another year behind bars ends for that wonderful fighter, Ernst Zündel, paying the price exacted in revenge for his exposure of the Great Lie of the extermination of six million Jews by Hitler in the war the Jews declared against Germany six years before Britain did so under Jewish pressure.

THE JEWISH HOLOCAUST as a continual mind-moulding edifice of repetition is the Jewish super -weapon designed to conquer the Aryan mind, beguiling and bludgeoning our people into abstaining from critical thought and action against this power-seeking tribe. It has successfully put our folk in thrall. To bow to it in at least abstention from questioning it, if not positive concurrence, is to accept its corollary that the expression of racial discrimination leads to gas chambers and the smoking chimneys of crematoria. Thus it cannot be evaded or consorted with but has to be faced and fought. The 'Holocaust Day' of the stokers of the furnace of falsehood comes round on 27 January and should be taken as the occasion for counterblasting this construction of anti-Aryan propaganda. A ready refutation is the fact that day by day more and more Jews are proclaiming themselves 'Survivors' and thus contradicting the story that the wicked Nazis with Germanic efficiency set out to and succeeded in exterminating them all, so the survivors have somehow succeeded in the fabulous art of overcoming both asphyxiation and combustion.

Truly, only the Chosen Ones of Jehovah could be capable of such a feat.

RICHARD EDMONDS, an indefatigable fighter for race and nation over a great many years, is to be complimented on his effective efforts in aid of Dr Frederick Toben, the Australian critic of the Jewish Holocaust propaganda who was recently seized when in transit through the U.K. because of a European Arrest Warrant procured by the repressive German authorities in their zeal to serve Israel, this on the grounds that his views could be accessed in Germany by the Internet where criticism of the Jews is completely prohibited and severely punished. The British authorities initially imposed an enormous sum for bail, but Richard managed to raise it by an appeal, but just as he did so the authorities ruled the warrant to be defective, cancelled the bail requirement and released Dr Toben unconditionally. Richard Edmonds is the secretary of the Friends of John Tyndall, P.O. Box 279, Sutton, SM1 9AR.

COMING FROM CANADA is the informative newsletter 'Insight', the November 2008 issue of which carries items on Ernst Zündel, gaoled in Germany, and Gerd Honzik sitting in an Austrian gaol awaiting punishment, having been deported to his home country by way of a European Arrest Warrant, after living in Spain in exile since 1992 because of repression there. In 1992 he was charged for writing and distributing his book (title in translation) 'Acquittal for Hitler'. Contact address:- Bright Rainbow Apartado de C. 679, E 29620, Torremolinas (Malaga) Spain. This 'Insight' issue also has a unique item on the 'London Cage' where German prisoners were beaten, starved and deprived of sleep by British authorities, supposedly guardians of democratic decency, between 1940 and 1948 in their labours to extract information and confessions. 'Insight' is monthly, costs \$30 per year, free sample obtainable for an International Reply Coupon. 241-720 6th Street, New Westminster, B.C., V3L 3CB, Canada.

GOTHIC RIPPLES 49 & 50. While there is good reason for the awful delay in producing the final two issues of 'Gothic Ripples', I do deplore that delay and do intend, when able, to complete the commitment. I plan to do this by way of a combined and printed issue which will present my view of the current situation and a practical alternative of purposeful resistance to the wasteful folly of electioneering. I do not set any date on when I can be able to do this.

DANIEL DEVILLE is a prisoner in Leavenworth penitentiary in the U.S.A. who nevertheless has the dedication, enterprise and work capacity to be a most prolific publicist. He produces a regular bulletin entitled 'Separate Living' and has also produced a number of booklets including reprints of 'Gothic Ripples' of mine in the 'Way Ahead' series (entitled 'Folkism' and 'Our Race past, present and future') and some on the project of bringing about a homelan for White people in a combination of three northwestern states of the U.S.A. which still have an overwhelming White majority population within a U.S.A. which as a whole is becoming subject to a Coloured majority. Such a project fits in with my own views on the way ahead. Daniel Deville's address is:- Daniel Deville #10449-035, P.O. Box 1000, Leavenworth, KS 66048-1000, U.S.A.

BE REALISTIC ABOUT THE BNP. When a party goes wrong to a correctable degree, good members need to stay on and bring about its correction, but, when it goes so wrong and the forces of wrongness within it are virtually irremovable, then it is that loyalty to ideals must overrule loyalty to a body no longer representing those ideals, and enjoin all good men and women to leave the corrupted body and work within a better body. This is the position now with the party founded by John Tyndall, racial nationalist of integrity, and usurped by Nick Griffin who has decisively corrupted that party, renouncing racialism, renouncing repatriation of Coloureds, renouncing anti-semitism, accepting obeisance to the Jewish idol of Holocaust worship, acclaiming Israel and vilifying Adolf Hitler and National Socialism in tune with the Jewish-dominated parrot press of old gang democracy, hailing all this as becoming 'mainstream', meaning part of the old order the BNP was founded to fight.

Not only is the general jettisoning of founding principles obscene, it is also futile in that the Coloured electorate is growing faster than the chances of the BNP winning power by parliamentary elections, and one can be sure that, if by some miracle the BNP got anywhere near sufficient ballot box success,

despite the desire and ability of the forces of the old order to impose sufficient handicaps to prevent this, those ruling forces would ban and break it as a proclaimed form of 'terrorism' illegitimate in a 'democracy'. Thus the deformed party of the traitor Griffin is on a road to nowhere: a waste of time and money.

COMMUNISM IS COMING TO US INCOGNITO BY THE BACK DOOR. Does it pass unrecognised because of its very proximity? The essence of Communism is dictatorship disguised as the democratic rule of the people, a dictatorship backed by Jewish finance and decisively dominated by Jews, a dictatorship which makes anti-semitism a crime (one of the first acts of the Bolsheviks in seizing power in Russia was to impose the death penalty for anti-semitism) and a dictatorship which controls the public through the media and severely prohibits racial resistance. Well, we have got it all. Making war in Iraq and Afghanistan on behalf of Israel, and thereby arousing the resentment and retaliation of the Arab world, has given our enemy within the excuse of prevention of terrorism for present and future restrictions on liberty for racial patriots.

THE SEARCHLIGHT OF HATE. Within the great pretence which is the democracy of today, so much is the opposite of what it is made out to be. Thus we have something called 'Searchlight' which presents itself as a paragon of democracy while seeking by any means whatsoever to deprive racial patriots of any public platform. Alongside this it parades itself as some champion of brotherly love while manifesting the utmost hate against all Britons who show love for their race and nation and country in seeking to save them from the harm and ruin the forces represented by this hateful magazine signify. Hence it must become a prime task for all of us, vilified by this vicious vehicle of hate for all we hold dear, to turn its 'Hope Not Hate' campaign of pretence against its promoters themselves, exposing them in purpose and personnel as a camouflaged communist-front organisation working for the alien occupation and the alien control of our country. Let's turn the heat on these hatemongers! Now that they have laboured long and hard to shape this weapon of terminology against us let us take it up and make use of its currency to hit them hard!

CALLING US TERRORISTS IS THEIR NEW GAME. The Searchlight of Hate is at work on a new stratagem against us. This is to portray us as terrorists and thereby take advantage of the odium and security measures restrictive of liberty which have come about because of the jeopardy we have been placed in as a result of the Middle East aggressions of Britain and America for the sake of Israel. To secure our classification and consequent criminalisation as 'terrorists' is their intended way ahead to crush you and your racial patriotism. This is the Hate Plan of 'Searchlight' today and likely to be that of governments tomorrow who make use of 'Searchlight' as an auxiliary.

Even now they are trying it out on me as a top enemy. The Hate Light in its August 2008 issue went to work on me, presenting eight entirely untrue allegations of my involvement in alleged 'terrorism' despite the fact that I have never been convicted of any crime of violence. I have had solicitors specialising in defamation cases write several letters to the Hate Light calling for a retraction, but in their several responses through their solicitors they have so far refused. Even just this preliminary, required by legal protocol, has been very costly, totalling £1135.38, but it can be said that to do nothing about such extreme vilification is even more costly because not to challenge can be construed as admission of guilt.

I have now gone a step further and through my solicitors just engaged a QC specialising in defamation cases to give a written 'Opinion' on the matter and the chances of a successful case. However, even if the QC rates my case as very likely to be successful, I could not afford on my own to take on the risk, which always remains in what is a gamble of the courts, of losing and having huge costs of both sides to pay. If I am to take on a battle which is in the interests of every racial nationalist whatever the organisational affiliation or lack of it, then I must have sufficient reliable backing beforehand. By this I mean letters now, not later, pledging contributions in excess of £10 and in multiples of £10, if called on because the case has been unsuccessful and I have to meet both my own legal costs and that of the other side, or, if I have won but costs awarded against the other side are not being paid whereas I have to pay my own costs. Please do not send a letter of pledge unless you really can and will put in the money promptly, if the outcome of the case requires it and you are called on to honour your commitment. Also, please excuse me from acknowledging pledges now because of the extra work this would involve. I need to have enough pledges in hand now before deciding to go to court and incur the risk. So it is now up to the racial nationalists as a whole to decide if they want to fight Hate Light through me.
