

Good News For City Airport

City Airport may not be making a loss for much longer; as of March, Swiss airline Crossair will be running two daily round trips from Zurich to Docklands. Let's hope there's more good news in the pipeline.

Lufthansa is to simplify its fare structure from April. A new North Atlantic tariff will offer passengers more freedom of choice *and* be up to 10% cheaper. Minimum stay requirements are to be reduced from fourteen days to seven, and fare discounts for children, students and under 25s will be increased.
