After [my last article](#) on this witch-hunt I said: no more. Period. Ever. This one isn't really about Cosby though, it's about Gloria Allred. The lady has lost the plot, she has found three more Cosby *victims*, or perhaps we should call them *survivors*, and paraded them before the media. The bottom line is that they are all so ridiculous that any rational person is entitled to ask have they been put up to this by a tabloid newspaper, or perhaps by Cosby's lawyers, because this is weird stuff.

Miss Allred has uploaded the full press conference to her YouTube channel (you can watch it below). Comment are disabled for the video; comments were not disabled for the attending journalists however, but not one of them raised a critical question. Heck, why didn't they simply laugh and leave the room? One of these mad witches explained how she had been orally raped by Cosby in an office on a film set, how he had ejaculated in her mouth, and apparently her hair, then tried wipe off the semen with a paper tissue. Another said he drank champagne out of her shoe and then drugged her before raping her. Fortunately, the third was a powerfully built six foot model, although he still managed to make her go weak at the knees.

Do grown women really allow themselves to be violated with total impunity like this, seriously? Check out some of the videos on YouTube of young girls being searched by TSA agents before answering that question.

One of these accusers actually brought along her dog, and would you believe he is called Oscar? No Oscar for you, lady, but if they ever decide to remake *One Flew Over The Cuckoo's Nest*, you'll be first in line for a starring role, you won't need a script, just be yourself.

Although she wouldn't allow any of her charges to answer questions, just in case one of the assembled journalists saw through this charade, Miss Allred did answer a few questions herself, and threw down the gauntlet to Cosby's legal team saying she would debate them on anything except the Huth case which is currently *sub judice*. How would she like to debate with [Elizabeth Loftus](#), or perhaps [James Randi](#), who although not a lawyer recognises flim-flam when he sees it?

Towards the end, Miss Allred let drop that there are yet more of these accusers to display to the world, and mentioned something we know already, that she is using this *evidence* to try to *overturn statutes of limitations* throughout the United States. The reality is of course that with this insane exhibition she has demonstrated the need for statutes of limitations to be retained and indeed to be implemented worldwide. Would any celebrity, any business person, indeed anyone at all – man or woman – be safe if lunatics like these three were to be given *carte blanche* to make any absurd historical allegation at any time and have it taken seriously by the judicial system? One of these *victims* dates her attack to 1971; another, Eden Tirl, to 1989. The implication of two of these accusers is that others who worked with Cosby knew what was happening and that they were either complicit in his depravity or looked the other way. A more prosaic explanation is that they were totally unaware of what was happening because nothing actually happened.

The story narrated by Linda Ridgeway Whitedeer is similar to those told by Joan Tarshis and Louisa Moritz; clearly she has the same memory problem as Moritz – who was assaulted by Cosby when he wasn't present; or perhaps she has the same mental problems as Tarshis. Perhaps like Tarshis she even *communicates with aliens*?

And they didn't come forward at the time because...they were terrified, they were afraid they wouldn't be believed, etc, *ad nauseum*. Here's one more question, if you didn't think people would believe you when you had Cosby's semen all over your face and even in your hair, why should anyone believe you now? More to the point, where are those men in the white coats, because

there are four madwomen in here waiting for a ride to the nearest boob hatch, and one of them is an attorney.

Poor old crow~that is what happens when the anti~stress injections go to the brain and create delusions of grandeur. Makes one think, she is angry Donald Trump would consider her too old to come and work the VP position when he dismounts his soap box! These women of claimed and still unproven assaults are seriously a comedy act from the 'Theater of the Absurd'..when will the public wake up? The man was a young vibrant attractive swinger in the day of the swinging party scene and he was a man of color which would make him a huge target. There is no way a gaggle of hens would keep this hot topic under wraps.

Linda Ridgeway Whitedeer's script that she read out loud with her eyes glued to it The ending paragraph of thanks to her credits as though she had just received an Emmy, not written like a victim's legal statement at all but more like coached script for a part in a movie.....Are they planning a sequel or perhaps an entire season of SOL Aftermath by lining up and enlisting new recruits in abundance but NEVER one who is real with evidence????

I'm laughing myself silly every time she digs up more hoes with holes in their story to parade around for the press... If you think Gloria is done digging for hoes, get ready, she'll be back with more hoes for \$\$\$\$\$\$ sooner than you think.. Watch and see for yourself..

This makes no sense. No one will believe you with the evidence. But people should believe you 50 years later without it??? OK...that makes sence.
