**WORDS OF WELCOME
CHELSEA BOYS' CLUB**

The Chelsea Boys' Club was founded in 1935 to provide facilities and support for young people in the World's End area of Chelsea and it is our proud boast that we have been "in business" without interruption ever since, first in Lackland Place and thereafter at 385 King's Road. There have been good times and bad times, but over the years many youngsters have been able to find their hobbies and entertainments within our doors and, above all, friendships not only amongst themselves but also across the generations. All this has come about through dedicated hard work by those associated with the Club and by the solid support of our friends and families in the neighbourhood.

I hope that you will all enjoy the day's sport and entertainment: but in addition you will know that you are also helping to provide encouragement and facilities for today's youngsters so that they can experience some of the pleasures that previous members have had. It may well be an affluent age, but life gets no easier for the coming generation: for the Club we must provide equipment, accommodation and helpers at no matter what cost to meet this challenge.

It gives me very great pleasure to thank the Sporting Celebrities for so generously giving us their support and time in the midst of their own busy programmes, the "Old Boys" for taking the field against them on a Sunday afternoon, the London District Command and Royal Hospital authorities for providing the venue and all those who have worked so hard on today's arrangements.

It is my very great privilege to welcome you to enjoy the results of their efforts and to thank you also for your support.

Chairman
