STORIES

King's Cross

EXPERIENCE AND EXPLORE

A fusion of science, culture, art and unexpected performances across King's Cross

CURIOUSER AND CURIOUSER

Lewis Carroll meets Lewis Cubitt. Celebrate the 150th anniversary of Alice in Wonderland with this curious telling of the tale from the British Library (hint: the canal is involved).

DANCING IN THE STREET

The Place dances up a storm and invites you to devise some original choreography, featuring Richard Alston Dance Company, Shift and more.

THE MYTH BUSKERS

It's busking, but not as you know it! The Crick and the Institute of Physics perform street science to intrigue, amuse and entertain.

POETRY PARLIAMENT

Poet in the City presents Dean Atta, Caroline Bird, Deanna Roger and Anthony Anazagorou to throw a poetic spotlight on the issues of today.

EATING AND DRINKING

Recharge low batteries with the very best street food and drink in town.

CHILDREN'S BOOK FESTIVAL

It's a literary playground with illustration classes, storytelling and performances of all kinds courtesy of Guardian Live.

MUSIC WORKSHOPS

Experience the buzz of playing in a Cuban Big Band or the allure of Balinese Gamelan in these fun, hands-on workshops by the School of Oriental and African Studies.

SCHOOL OF LIFE TALKS

How do you choose a partner? And, how do you find a job you love? The School of Life serves up a thought-provoking exploration of these very big questions.

CREATIVE IDLENESS LOUNGE

A quiet corner to rest over-stimulated minds and bodies. Reflect on the knowledge absorbed while relaxing in hammocks.

ALL THIS AND MUCH, MUCH MORE!
