

BULLOCK

Dear Shephall Resident,

I am aged 31 and have lived in neighbouring Broadwater for 25 years so I know what is needed in the Shephall Ward.

I am most concerned by the Council's apparent lack of action over the death-trap Shephall Way. I consider absolute priority should be given to accident prevention generally and to this black spot in particular.

If elected I would like to introduce a system whereby residents get together in groups at their own houses so that I could attend such gatherings on request, hear grievances personally then take them to the Council and press for action concerning such problems. I would not sit on Council meetings just to claim expenses but to work for the people of Shephall and the town.

As a resident of the Broadwater/Shephall area I fail to understand why we should pay higher bus fares than people in other parts of the town and yet receive a poorer service. This needs investigation.

Has your child been accepted by the school of your choice? Yet another thing I would like to assist you with.

Do you ever see your councillors after you've elected them? No? But you can always see Marion Powell or myself campaigning on behalf of Steverage residents or assisting someone in need and we don't get paid by anyone.

Finally, I am a reluctant politician, driven into politics because of the inefficient and corrupt practices of the politicians of the so-called three major parties.

Don't vote Con Lab Lib just because you have always done so or merely one of the others "just for a change". I assure you it won't be a change for the better because they've all had their chance and what have they done?

Look at the latest fiasco about the purchase of council houses. What right have they got to deny anyone the security that home ownership brings? I would like to see everyone with their own home.

Vote for me and see some action! Vote for me and get things done!

Yours sincerely,

TENNY BULLOCK

## Short Story

### THE NEVER-NEVER COUNCILLORS or "ON TICK" by Inmore Debt...

If a housewife borrows money to pay the rent or her household bills, she has to pay it back - quick!

If a householder borrows money to buy a new car or T.V. set, he has to pay it back in a very short time, with interest.

If the money is not paid back then the housewife or householder would be arrested and put in prison.

So in other words it is very difficult for the ordinary man-in-the-street (ratepayer) to live "on tick" for very long without getting into difficulties to say the least.

Why then should we accept council borrowing on our behalf? Because these people are getting us into difficulties which your children and their children will inherit.

Every local government (as well as Central Government) is heavily in debt and the rates of interest demanded on money borrowed in some areas is as much as 60% and the situation is worsening. This means that if the money were not borrowed for unnecessary projects such as golf courses, then the ratepayers could have 2/3 of the rates in their own pockets!

It is one thing for an individual to mortgage his own income for things he may think he needs, that is his choice, but it is another matter for a Council to mortgage ratepayers' income for them. With the Socialists' attitude of mind they can spend and borrow as much as they like because rates have to be paid BY LAW and defaulters face imprisonment for non-payment. No business can succeed on these lines of overborrowing -- it would go bankrupt and logically councils will go bankrupt because eventually ratepayers will be unable to pay their rate demands and with all the ratepayers in prison how are the councils going to pay their creditors? Will the councillors be sent to prison? THEY OUGHT TO BE!

The BRITANNIA PARTY says the only way to run an efficient organisation is to borrow as little as possible for ESSENTIAL ITEMS only and preferably to cut the coat according to the cloth!
